

Elders Gathering at Lake Titicaca, Peru March 19 – 23, 2007

An incredible event will take place in Peru over the Spring Equinox 2007. Elders from Indigenous tribes of the Americas will gather at Lake Titicaca to council and listen to our Mother Earth, the Pachamama, and perform ceremony and ritual that will beckon in the prophesied Age of Peace, 500 years of unity and shared vision between peoples who have, for the last 500 years of Darkness, been scattered and oppressed. When the peoples of the Americas once again unite, the prophecy states, it will create worldwide transformation, allowing all of humanity to move from the depths of war into the light of peace.

Elders of Peru, keepers of this Incan vision, say that it is time for the Condor (South America) to reunite with the Eagle (North and Central America). Their mission is to formally and ritually bind the Indigenous tribes across the Americas together, for when these, the gatekeepers of our land, speak as One, the energy of their shared vision will spread to all of the tribes of Earth.

Rituals and ceremony for healing the suffering carried by the People is a vital aspect of this work, for only through forgiveness and deep healing can the Age of Darkness truly be released and the Age of Peace be welcomed in its place. When this is accomplished, the prize is a deeper and more lasting peace than many of us have ever known. It is world-changing when barriers of separation are dropped, the past is forgiven, and the People stand as One. It is the destiny of the Americas to begin this blessed transformation on the Spring Equinox 2007.

Elders from all tribes are being called to participate in this extraordinary, historic and profound event! Some will travel to Peru in March for Council and ceremony in person. Others will stay on their own land, using ritual and ceremony to anchor the energies of healing and unity over all the power places on Earth. Many will offer bundles and resolutions, stating the fulfillment of their own tribal prophecies and pledging unity with those in Peru who are bringing this vision to life. All peoples are invited to pray and heal themselves during this time, wherever they may be.

The Elders, Wisdom Keepers, Medicine People and Historians need our support to bring about this sacred transition for Earth and Humanity. Prayers and intentions are the most important contribution anyone can make, and these are asked of anyone whose heart longs for peace and unity. The gathering will be supported by participants from around the world and will also serve as a forum for cultural exchange and teaching as well cultural arts performances, such as the Eagle and Condor dances.

Earth Works for Humanity/Institute for Cultural Awareness is a 501c (3) non-profit organization coordinating the Eagle tribes of North and Central America. *Range Guide information about participating in the gathering or offering financial support to the Elders, please email [Elder](mailto:elder7@rangeguide.net) at elder7@rangeguide.net or call (706) 937-7379.
